Thought for Thought

My hopes are not always realized, but I always hope. - Ovid

Tips & Information

The oldest pair of skates known date back to about 3000 B.C., found at the bottom of a lake in Switzerland. The skates were made from the leg bones of large animals, holes were bored at each end of the bone and leather straps were used to tie the skates on. Around the 14th Century, the Dutch started using wooden platform skates with flat iron bottom runners. The skates were attached to the skater's shoes with leather straps.
